MSC iREEFER
KEY FEATURES

REAL-TIME MONITORING
Track your container's journey in real-time. This helps in reducing the risk of damage or loss and allows for immediate response to potential issues.

INCREASED EFFICIENCY
Optimize your supply chain operations with data-driven insights and predictive analytics.

TEMPERATURE CONTROL
Ensure that your temperature-sensitive cargo, such as perishable goods, pharmaceuticals, or chemicals, is maintained at the correct temperature throughout the journey.

ENHANCED SECURITY
Keep an eye on your cargo to allow immediate actions and ensure smooth performances.

COST SAVINGS
By preventing spoilage or damage to goods, you can save on costs associated with waste and insurance claims.

TRANSPARENCY AND COMPLIANCE
Meet regulatory requirements and provide transparent information to your customers and stakeholders.
